**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I chose Sonic internet in the SF Bay Area because they offer best rates and fastest gigabit fiber internet in my area. Their service is reliable and never fails unlike AT&T. I had DSL from AT&T for years and they were unreliable, expensive, and just bad service and products. They owned the market space for years with no competition and have failed to be innovative, failed to lower prices (never lowered prices) and failed to provide consistent uptime on their broadband (maybe 90% uptime over a 12 month period, maybe). We need more companies like Sonic to compete in this market and bring more quality, more feature options, and lower prices. Dont kill broadband. Everyone needs internet to get news, to communicate with family/friends, to do work, and a way to communicate/talk to others. Dont kill our right to free speech and freedom in life.
